Wellington Regional Council
WELLINGTON

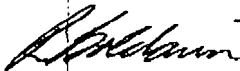

Re: Local Body Boundaries 2001

We believe that the Wellington Representative Region should revert back into a Northern Ward and a Southern Ward for the following reasons:

- a) Representatives could and should represent their community of interest. This would allow them to do so.
- b) The cost of running region-wide could be prohibitive to those who have the skills, interest and time but not the money. Regional Council should be aiming for the best available. Finance should not be the determining factor.

Should the opportunity arise I would be prepared to present an oral submission on this.

Yours sincerely
