Attention Geoff Dick, Flood Protection Manager

Dear Geoff

FILE REF.	
N	03/09/01
Doc. No. 245761	
Referred to	Date/Inf
G. DICK	

After discussions with Brian Kouvellis who inspected our flood problems at the course he suggested we write to you and request a meeting with you to discuss the following significant issues for us:

1. We have grave concerns with the drainage creek on the western side of the property; our professional advice indicates that it has the potential to wipe us out.
2. We are also becoming increasingly concerned about the rapid rate of erosion of the river bank on the eastern side of the property which we believe is probably now encroaching our property.

As each 100 year flood seems to be now occurring every year we are becoming very concerned indeed at the current ongoing and potential financial cost to the Club in keeping the facility alive which is well beyond our resources.

We strongly believe that the Manor Park golf course offers an excellent beautification belt as well as a quality sporting facility for all in the region to enjoy, and is worthy of long term protection.

Brian will be returning to work on 2 February and has very generously offered to attend any meeting involving these issues with us.

Would you please contact me as soon as possible to arrange a meeting (Ph: 913-4531).

Yours faithfully

Peter Williams
President
